Journal of
Artificial Intelligence

Broad coverage

Journal of Artificial Intelligence publishes state-of-the-art research reports and critical evaluations of applications, techniques and algorithms from artificial intelligence, cognitive science and related disciplines. As a peer-reviewed journal, acceptance criteria for all papers are the quality and originality of the research and its significance to our readership.

Scope: Automated reasoning, computational theories of learning, heuristic search, knowledge representation, qualitative physics, signal, image and speech understanding, robotics and natural language understanding.

Journal of Artificial Intelligence now accepting new submissions. Submit your best paper via online submission system at scialert.com
