ISSN 1994-7879

## ***Fast and efficient submission and review process***

Asian Journal of Crop Science is an international peer-reviewed scientific journal publishes the original research on all aspects of crop sciences that can be readily accessed by researchers and development leaders in Asia and rest of the world.

**Scope:** Scope of the journal covers topics related to the production science of field crops and resource plants, including cropping systems, sustainable agriculture, environmental change, post-harvest management, biodiversity, crop improvement, and recent advances in physiology and molecular biology. Articles on soil science, meteorology, biometry, and plant protection will also be considered as long as they are significantly related to crop production..
