

Journal of Environmental Science and Technology

ISSN 1994-7887

Fast and efficient submission and review process

Journal of Environmental Science and Technology is an authoritative source of information for professionals in a wide range of environmental disciplines. This journal serves as an international forum for the critical review of current knowledge on the broad range of topics in environmental sciences.

Scope: The journal covers all aspects of environmental sciences, such as environmental chemistry, environmental biology, ecology, geosciences and environmental physics. Appropriate subjects include basic and applied research on atmospheric, terrestrial and aquatic environments, pollution control and abatement technology, conservation of natural resources, environmental health and toxicology.
