searching to ensure your  
article is noticed

## AIMS & SCOPE

Hematologia is a newly launched peer-reviewed scientific journal dedicated to provide broad coverage of experimental and clinical features of blood diseases in humans and in animal models of human disease. The journal publishes original contributions in non-malignant and malignant hematological diseases including clinical and basic studies in hemostasis and thrombosis, red or white blood cell disorders, therapeutic trials in leukemia, myeloma, and lymphoma, immunology, blood banking and stem cell biology. Clinical translational reports describing novel therapeutic approaches to diagnosis and treatment of hematological diseases are welcomed and encouraged.

## Why Publish with ANSInet?

- ✓ Publicity
- ✓ Maximizing your audience
- ✓ Working closely with Authors
- ✓ Fast and professional peer review
- ✓ Rapid publication after acceptance
- ✓ Worldwide dissemination of your work
- ✓ Simple and effective online submission service
